SUSTAINABLE DESIGN

was very important to you....

Please indicate by placing dot stickers in the table of eco-design options below which eco-friendly designs you would like to see used:

Sites for development that have a Southern-facing slope are preferred	
Windows are located at a height that allows lower winter sun to heat the house	
Use passive ventilation (e.g. windcatchers on the roof)	
Recycling of household and garden water	
Planting a green roof for natural insulation and biodiversity	

**Please add any further eco-
designs you would like to see
used here:**
